## Strobe XP 220

The Strobe XP 220 brings together a fast scanner, small footprint and the image enhancing software of Kofax VRS never before seen at this price. The Strobe XP 220 is compact enough to fit on your desk (often between your keyboard and monitor) and powerful enough to scan and organize all of your documents, photos, articles, brochures, business cards and receipts. Now you can scan and file all of these documents right alongside your "born digital" electronic documents for better organizing and managing paper in an electronic world, all through a hi-speed USB 2.0 interface\*.

## Visioneer® OneTouch® with Kofax VRS Technology

A joint development project, Visioneer OneTouch with Kofax VRS technology is an integrated software solution that combines the ease of Visioneer OneTouch scanning, with the superior image quality achieved with Kofax VRS (Virtual ReScan®) technology that results in scanned images that are of the best quality possible in one simple step.

**Perfect for the Office, on the Road, or at Home!**

### Scans all these...

Forms

Letters

Magazine Articles

Notes

Receipts

Business Cards

The Strobe XP220 integrates Kofax VRS image enhancement technology into the OneTouch scanning process. VRS is the gold-standard in image improvement technology. Imperfect originals are automatically turned into perfect scans that are easier to read for the human eye and the computer's eye. OCR results are dramatically improved, file size is decreased and scans look as clear as the originals. And every page is custom corrected automatically so you can batch together clean, laser quality documents with your imperfect originals. The results are amazing.
